BUSINESS ACUMEN | SOLUTIONS CREATOR | CRITICAL THINKER

- Results-driven innovative team player, and critical thinker with significant achievements in implementing continuous improvement initiatives while maintaining highest level of OH & S standards
- Strong believer in mapping processes to identify scope for improvement and for introducing positive changes
- Natural passion for developing innovative solutions for engineering and quality using analytical and critical skills, problem-solving skills, and managing timelines and resources
- Demonstrated experience in identifying and troubleshooting engineering defects, modifying designs, following Gantt charts ability to influence and persuade management followed by accepting accountability and ownership
- Dedication to optimising productivity, efficiency and performance, realises organisational long-term goals, communicates with finesse, leads with confidence, and advises with influence

EXPERTISE OFFERED

- ❖ Quality assurance
- ❖ Continuous improvement
- ❖ Project Management
- ❖ Monthly report management
- ❖ Inventory control
- ❖ Leadership
- ❖ Reporting & Analysis

- ❖ Maintenance of procedures & controls documentation
- ❖ OH & S practices
- ❖ Root cause analysis
- ❖ Project Focus
- ❖ Productivity and economy
- ❖ Executive interaction
- ❖ Attention to detail
- ❖ Analysis & formulation of solutions

ACADEMIC QUALIFICATIONS

Bachelor of Mechanical Engineering(2016); Vishwakarma Institute of Technology Pune, India

Diploma in Mechanical Engineering(2013); I.C.R.E. Gargoti, Kolhapur, India

Diploma in Digital Fabrication and manufacturing(2017); Fab Foundation, Boston, U.S.A

CAREER SNAPSHOT

Mechanical Engineer; Reliable Tech, Noida sector 63, UP, Feb 2022-present

Design Engineer; D-Tech Philter co, Melbourne, Australia, Jan 2021- Jan 2022

Fab Lab Executive; AIC AARTECH Solonics Pvt. Lmt. Bhopal, MP, India, Nov.2018- Apr.2019

Project Engineer; Ajay Kumar Garg Skills Foundation Ghaziabad, UP, India, Oct.2017-Oct.2018

Design Fellow; Vigyan Ashram Pabal, Pune, India, Jul.2016- Jan.2017

TECHNOLOGY EXPERIENCE

Catia V5 (Academic, Project, Design Assignments) | Solidworks (Academic, Project, Design Assignments) | Laser cutter machine (Academic, Project, Professional) | 3D Printer (Academic, Project, Professional) | Vinyl Cutter Machine (Academic, Project, Professional) | MS Office Suite (Academic, Project, Assignments)

PROFESSIONAL DEVELOPMENT

ISO 9001:2015 Internal Auditor, AKGEC Skills Foundation, Ghaziabad, UP, India

PROFESSIONAL EXPERIENCE

D-Tech Philter co, Melbourne, Australia

D-tech Philter Co aims to reduce microplastics in the ocean with a patented vibrating filter technology.

Design Engineer

Jan 2021- Jan 2022

Hired for position due to strong technical, strong designing skills, communication, and problem-solving skills

Reported to: Engineering Manager

KPIs: CAD drawings, process improvement, team collaboration, progress reporting, timely project completion

Key Achievements:

- ❖ Developed and implemented process & design engineering changes to ensure safe working environment

AIC AARTECH Solonics Pvt. Lmt. Bhopal, MP, India

AIC Aartech is an Atal Incubation Centre. AIC supported by a NITI AAYOG, Government of India.

Fab Lab Executive

Nov.2018- Apr.2019

Hired for position due to strong technical, strong designing skills, communication, problem-solving skills, and mentoring for New start-ups

Reported to: Brand Manager

KPIs: Self-driven team player, timely task completion, team collaboration, stakeholder management, process improvement, progress reporting, QA & QC, liaise with customers & logistics to improve efficiency, Technology Prototyping

Key Achievements:

- ❖ Mentored and prototype technical start-ups & developed industrial apparatus for measuring sound readings

Ajay Kumar Garg Skills Foundation Ghaziabad, UP, India

AKGEC Skills foundation, an ISO 9001:2015 Certified and NABL Accredited Facility, is a joint initiative of Ajay Kumar Garg Engineering College and National Skill Development Corporation, Ministry of skill development & Entrepreneurship, Govt, of India

Project Engineer

Oct.2017-Oct.2018

Hired for position due to strong technical, strong designing skills, communication, problem-solving skills

Reported to: Scientific Officer

KPIs: Timely task completion, team collaboration, stakeholder management, process improvement, progress reporting, liaise with customers & logistics to improve efficiency, Skill Development workshops and course structure development

Key Achievements:

- ❖ Significantly improved productivity through excellent verbal and written communication skills

Vigyan Ashram Pabal, Pune, India

Vigyan Ashram is continuously engaged in developing, adapting and disseminating new technologies useful to rural technology

Design Fellow

Jul.2016- Jan.2017

Hired for position due to strong technical, strong designing skills, communication, problem-solving skills

Reported to: Engineering Manager

KPIs: CAD drawings, process improvement, team collaboration, progress reporting, timely project completion

Key Achievements:

- ❖ Developed and implemented process & design engineering changes to ensure safe working environment

KEY PROJECTS

- ❖ **Non-electric Oxygen Enrichment Unit for rural areas patient- D.I.C. Vigyan Ashram;** empathizing first aid problems in rural India after snake bite and develop solution and prototype by using Oxygen Membranes provided by client. We achieve 5Bar pressure by using a rare wheel motor cycle.
- ❖ **Disinfectant setup for chemotherapy patient;** In case of cancer patient chemotherapy is practiced on patient several of times. Due to which the immune system of the human body decreases and causes infection. During this process environment of patient should be clean and disinfectant. Developed disinfectant apparatus using heater and fundamental knowledge of engineering.
- ❖ **Rainwater purification model;** Client wants to record real time reading of his theoretical project. The main purpose of concept proofing; is to implement same model (pit type) at hill region.
- ❖ **Recycling of drainage water;** Project was to develop a gray water treatment system for campus hostel by using engineering knowledge and different methods, i.e., growing algae in drainage water
- ❖ **Lantern mold for tribal area women;** Designing and developing user-friendly mold by using laser cutter. These molds are a source of income for tribal area women.

MOMENTS OF PRIDE

Recipient of IIT Bombay Education Scholarship for Fab Academy 2017 program, India
